

# PRINCETON CENTER FOR PLASTIC SURGERY & MEDISPA

## MENU OF SERVICES

**Medi-Facials** – These treatments are designed to address your concerns whether they are premature aging, extreme sensitivity, acne or simply to refresh and revive your complexion. Perfect for those who desire simple cleansing and hydration but want to be pampered.

Customized Facial	50 min \$95
Purifying Facial	50 min \$125
Gentlemen's Facial	50 min \$95
Teen Facial	40 min \$85

**Microdermabrasion** – Microdermabrasion is a safe and effective non-surgical and non-invasive process that rejuvenates and exfoliates the skin. Microdermabrasion removes the dead skin cells, and stimulates the production of new skin cells and collagen, giving a smooth and healthy glow to the skins surface. Microdermabrasion causes very little discomfort, and treatments offer a very quick recovery.

Microdermabrasion –	\$135
Microdermabrasion – incl. neck	\$150
Microdermabrasion – with facial	\$185
Microdermabrasion – with chemical peel (Ultimate Peel)	\$220

**Chemical Peels** - Often called “the lunchtime peel” another popular method of skin-resurfacing is done using chemical treatments. They produce dramatic results, especially when performed in a series, by promoting the rapid release of dry, dead skin cells that obscure the skin's natural clarity, tone, color and texture. At our Medispa, we use alpha-and beta- hydroxy acid in the form of glycolic acid peels, lactic acid peels and salicylic acid peels. You may experience some tingling followed by enhanced coloration of the skin that lasts only a few hours.

Chemical Peel – with dermaplaning	\$125
Chemical Peel plus – with dermaplaning	\$130
Acne Peel (usually covered by insurance)	\$150

### *Continuation Chemical Peels:*

Illuminize Peel	\$140
Vitalize Peel	\$175
Rejuvenize Peel	\$240
